

What happens next

WEAAD is dependent on the kindness of volunteers. Our sincere appreciation also extends to our 245 partner organizations and our outstanding group of national and international speakers who are genuine pioneers and champions of elder justice. People have been captivated by the idea that we can all work together to bring change. We need to pause and consider what could happen in the future. We can continue to develop a worldwide community on social media and continue to shine a light on these issues, we can continue to advocate for victims . We can reach out to younger generations and involve students who are willing to learn and be the change. We need to continue to develop plans and strategies on how to continue to be the change. How can we do this together? One answer to that is:

NAPSA's WEAAD Global Summit on June 14,2023, Video Conference, Details on NAPSA's website-<https://www.napsa-now.org/>
