

# **CODE VALUES AND DEFINITIONS**

March 31, 2023

**THE PAPERWORK REDUCTION ACT OF 1995 (Pub. L. 104-13)**

Public reporting burden for this collection of information is estimated to average 5 hours per response, including the time for reviewing instructions, gathering and maintaining the data needed, and reviewing the collection of information.

An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number.

The NAMRS Code Values and Definitions serve as a reference to the Agency Component Data Specifications, Case Component Data Specifications, and Key Indicators Data Specifications. It provides definitions of code values found in each data component.

The main responsibilities of a payee are to use the benefits to pay for the current and foreseeable needs of the beneficiary and properly save any benefits not needed to meet current needs. A payee must also keep records of expenses. When SSA requests a report, a payee must provide an accounting to SSA of how benefits were used or saved.
	50	None	The perpetrator has no authorization in relation to the client.

### Legal remedy recommendations

	1	Removal of guardianship rights	The termination of a relationship, created by state law and determined by a court, in which an individual or entity acts as a conservator, or by a similar term, as a surrogate decision maker for another person who lacks capacity to make decisions about self-care or property. The individual no longer has duty and power to make personal and/or property decisions for the other.
	2	Restraining order on perpetrator regarding the client	A court order issued to prohibit an individual from carrying out a particular action, especially approaching or contacting a specified person.
	3	Eviction of perpetrator	The act of expelling someone, usually a tenant, from a property.
	4	Restitution by perpetrator	Compensation paid to client by perpetrator for the losses or injuries incurred as a result of a criminal offense.
	5	Restorative justice	A set of principles and practices that examines the harmful impact of a crime and then determines what can be done to repair that harm while holding the person who caused it accountable for their actions and includes victims/survivors in the justice process. Outcomes seek redress for victims, recompense by offenders and reintegration of both within the community while reducing the likelihood of re-offense.
	6	Perpetrator registry	A perpetrator registry is a system for maintaining the identity of individuals who are found to have maltreated adults in the community or facilities and meet the requirements for referral. This information is made available to individuals, agencies, or employers authorized to receive the information who use it to exclude the perpetrator from employment.
	7	Other legal remedy	Legal remedy recommendations not included in the categorizations provided.
	8	None	No legal remedies were recommended or sought on behalf of the client.
