

# Elder Abuse Annual Research Compilation

SEPTEMBER 2022 – AUGUST 2023

This annual compilation is a research guide containing articles relating to elder abuse, neglect, and exploitation that were published between September 2022 and August 2023.

**Search criteria and strategy:** The articles were identified using the USC library catalogue database and applying the search terms *elder*, *mistreatment*, *abuse*, and *neglect*. Only peer reviewed research articles published in English were included. Articles were excluded for non-relevance if elder abuse, mistreatment, or violence were not in the title or keywords.

This year's prominent themes in research included, but were not limited to, the following:

1. [Financial, Physical, Psychological, and Sexual Abuse, Neglect and Self-neglect](#)
2. [Risk Factors](#)
3. [Long-term Care/Long-term Services and Supports](#)
4. [Elder Abuse Prevalence, Screening, and Measurement](#)
5. [Women and Diverse Communities](#)
6. [International Studies](#)
7. [Prevention and Intervention](#)
8. [Caregiving](#)
9. [Dementia](#)
10. [COVID-19](#)
11. [Miscellaneous Research](#)

Articles that related to multiple topics were placed in the category that was most central to the research and its application.

Please direct any questions about the research referenced in this publication to the researchers who authored the studies.
