

# Elder Abuse Annual Research Compilation

SEPTEMBER 2021 – AUGUST 2022

This annual compilation is a research guide containing articles relating to elder abuse, neglect and exploitation that were published between September 2021 and August 2022.

Search criteria and strategy: These articles were identified using the USC library catalogue database and the search terms *elder*, *mistreatment*, *abuse*, and *neglect*. Only peer reviewed research articles published in English were included. Articles were excluded for non-relevance if elder abuse, mistreatment, or violence were not in the title or keywords.

The themes and topics that were prominent in research this year include, but were not limited to, the following categories: (1) *Financial, Physical, Psychological, Sexual Abuse and Neglect*; (2) *Risk Factors*; (3) *Long-term Care/ Long-term Services and Supports*; (4) *Elder Abuse Prevalence, Detection, and Reporting*; (5) *Cognition and Capacity*; (6) *Policy*; (7) *Culture and Ethnicity*; (8) *COVID-19*; (9) *International Studies and*; (10) *Interventions*. Articles that related to multiple topics were put in the category that was most central to the research and its application.

We kindly ask that you please direct any questions about the research presented in this publication to the researchers who authored the studies.
